REMARKS		
25X1		

1. On 11 August 1950 the Drewitz (O 52/A 68) airfield was occupied by 34 to 36 twin-engine, low-wing monoplanes which were arranged in two rows, facing each other, on the western edge of the airfield. * There was no flying.
2. No radar installation or AA gun emplacements were seen. ** The field has no night lighting facilities and is believed to be too small for night flights with twin-engine planes.

* ☐ Comment. The occupation of the field seems to be unchanged since 1 August 1950. ☐ The report indicates that the field is still occupied by one bomber regiment.

** ☐ Comment. Radar installations or AA gun emplacements have not been seen ☐
